Q14 – Comments about roads and locations where there is a problem

Some comments have been edited to ensure that respondents could not be identified, and some comments have been edited or omitted due to inappropriate content.

Speeding - From the station to the village along the Common Road especially just by the crossing before the school as you enter the village

HGVs - passing through the street

Congestion : Around the Lower Road roundabouts and The Howard

Dangerous / inconsiderate parking - The catholic church, the KGV (both on weekends) the Common Road by station, The Street

Inadequate Parking - generally - but especially The Howard , St Lawrence, and the shops

Poor sight lines - Home Barn entry to The Street

Other : Poor / No lighting at the crossing from Leewood Way to the footpath across the Common Road

Dangerous no footpath near Home Barn crossing The Street

Parking - near Howard

Other - appalling condition of Critten Lane

Speeding - Effingham Common Road

Speeding - The Street, Effingham Common Road, Forest Rd East Horsley. Parking - The Street, Lower Rd. Poor sight lines - Nightingale Rd to Forest Rd. and Heathway to Forest Rd. Foot paths - some foot paths on Effingham Common get flooded. Other concerns = dog walkers and horse riders not keeping to paths and bridleways and going across the centre of the Common. Drainage on Effingham Common Road.

Bad road surface - Critten Lane

Lower Road outside Howard of Effingham

Speeding - all local roads

Speeding along Effingham Common Road.

Inadequate - Lower Road outside Howard of Effingham School. Hopefully this will be addressed by sufficient car parking space being incorporated within the boundaries of the new school !

Poor state of roads in general ESPECIALLY Beech Avenue.

Congestion - Lower Road

Dangerous or inconsiderate parking - Lower Road, The Street, Church Road

Inadequate parking - The Street, Church Road

Speeding on the Street

Poor sight lines in exiting many roads due to speed of oncoming traffic

Browns Lane used as cut through which is inappropriate for a narrow lane (single lane in many places).

HGVs using Orestan Lane and Calvert Road Poor sight line exit Orestan Lane mini roundabout with The

Street and Effingham Common Road

Speeding -- across mini roundabouts at junction of Orestan; Lower Road; Effingham Common Road etc.

Congestion - in Lower Road - Inadequate parking sometimes by shops;

Poor sight lines - at mini roundabouts as above;

Poor Road Signage - mini roundabouts as above;

Poor state of roads generally and in particular failure of SCC to consult and take action.

Motorists still speed through the village, ignoring the 30mph signs. There are many pot-holed side roads. Roads in the village are very congested during peak hours.

Inadequate parking - KGV playing fields/Browns Lane

Damage to footways - Church Street

Mount Pleasant, outside Sibleys. There was a primary school event in KGV on 18 October and some of the parking was dreadful. It looked as though the cars had been dumped. Cars park next to the large bush adjacent to Sibleys and when residents drive down the road, we cannot see them. There are no yellow lines so they are parked legally but dangerously. Also traffic drives off the A246, straight across the junction to Mount Pleasant to get onto Sibleys forecourt - usually without looking left to see if anyone is exiting Mount Pleasant or Lindens Close.

I should like to add that it is not the rugby club or football players.

Broken roads with damaged areas painted white but not mended after more than 6 months

We would not like to see further limits on speed in the village - we do not actually support the lower speed limits on Effingham Common Road and A246, but we do have a problem with extreme/dangerous driving sometimes on Effingham Common Road near to St Lawrence School (e.g. overtaking on the approach to the roundabouts). We are concerned about the increasing numbers of HGVs and large vehicles (probably directed by sat nav) using local roads.

speeding - A246

Guildford Road, speeding. Congestion on Guildford Road and Lower Road, Effingham at school time. Congestion on Guildford Road when there are M25 motorway problems or A3 problems, especially in bad weather. Inconsiderate parking in Orchard Gardens and grass verges damaged.

A246 through Bookham due to deliveries at Chandlers timber yard.

Parking for the KGV rugby matches

Speeding.....Effingham Common Road	Congestion near Howard in Effingham	Other
concerns, poor road surface so Effingham Common Road VERY noisy		

Speeding - Effingham Common Road

Congestion - Outside Howard of Effingham School

Poor sight lines - Turning out of Calvert Road onto A246

Damage to verges or footways - Footpath alongside Effingham Common Road up to village damaged by tree roots at steep incline making pushing pram very difficult/unsteady

Other concerns - Regular flooding on Effingham Common Road

Congestion - Lower Road

High Speeds - Guildford Road

A246 - :Parking in Browns Lane. Sunday mornings when Rugby is being played - Parents park everywhere blocking Browns Lane and causing untold delays and congestion because of inconsiderate parking

Speeding - A246

Congestion - Browns Lane on rugby days

Dangerous or inconsiderate parking - Browns Lane on rugby days

Browns Lane, the parking when sports events are on in the fields, is unacceptable making Browns Lane a no go area.

The state of the surface/pot holes of some minor roads especially the section of Beech Avenue after St Teresa's School up to the crossroads of Crocknorth Road/Ranmore Common Road.

Sight lines on A246. HGVs through the village, Inconsiderate parking around Howard of Effingham school

HGVs - Effingham Common Road, The Street and Old Lane

Inconsiderate parking - outside the shops in The Street

Poor sight lines - pulling out of the shop parking in The Street

Speeding on Orestan Lane is common, speeding across roundabout outside St Lawrence is especially common

footpath between Plough pub and St Lawrence is completely inadequate (as parents use Plough pub car park for school drop off)

footpath near Plough pub (both sides) not wide enough for a pram forcing you into road (where there is speeding)

road crossing near shops on The Street is extremely hazardous. cannot see in both directions. very difficult when crossing with children

many footpaths around village are overgrown and therefore difficult for prams

Traffic along the A246 is increasing, we need a 30mph speed limit all along the route to keep speeds down The new village markers are just 'Road Clutter' and prevent good sight lines when pulling out from Woodlands Rd

Speeding- Effingham Common Road, The Street

HGVs - Effingham Common Road, The Street, also residential road, wrongly considered as a lay-by by HGVs on Guildford Road

Congestion- Effingham Junction to Howard Road. On Lower Road and Guildford Road - Beech Ave especially at school times.

Parking - On Lower Road and opposite Effingham Junction Station on Effingham Common Road

Poor Sight lines - Lower Road, Effingham Junction Station, Church Street on to Lower Road, Beech Ave - Guildford Road.

Poor Signage - HGV restrictions on The Street and Effingham Common Road.

Other - Cyclists Safety- more cycle ways.

Inconsiderate parking - parking on pavement in Orchard Gardens.

Dangerous parking - parking on pavement in front of house on Guildford Road (near the Orchard Gardens turning), causing restricted view of oncoming traffic when crossing road or pulling out in car.

Orchard Gardens - Overgrown trees & verges - no consideration for walkers - the road has no street lighting and this has caused problems.

Orchard Gardens - Refuse bins being left out on pavement - no street lighting means they cannot be seen and are often walked into tripped over.

Beech Avenue - very dangerous during Saint Teresa school runs, also growing number of cyclists speeding on the road with poor sight lines for residential houses - an accident waiting to happen!

I remain committed to sustainable transport and despite living some distance from my place of work in Guildford and larger shops (Dorking, Cobham), I try to make the overwhelming majority of journeys by bike. While many drivers are very considerate, a sizable minority is not - and unfortunately it takes only one driver to seriously harm or kill a cyclist. As Surrey residents with some of the most attractive scenery in the country that makes this the natural heart of UK cycling should fully endorse this most sustainable form of transport by better policing, awareness campaigns, and the wholehearted support for public cycling events.

Dangerous or inconsiderate parking- Junction with Middle Farm Place-The Street Effingham

Congestion- Manor House Lane

Damage to verges or foot ways-Manor House Lane

Dangerous or inconsiderate parking-Old Lane

Speeding- Effingham Common Road

HGVs-Effingham Common Road

Congestion-Effingham Junction

Poor sight lines-Effingham Junction

Speeding- Bookham, Effingham to Horsley including Effingham Common. This is denoted mainly by tailgating and road hogging by 4x4s

HGVs- Bookham, Effingham to Horsley including Effingham Common. This is denoted mainly by tailgating and road hogging by 4x4s. Sometimes.

Congestion-At school times.

Dangerous or inconsiderate parking-sometimes

Poor road signage- Often caused by not maintaining nearby foliage which covers 30mph limit.

Other concerns- Overhanging trees causing blind spots in high summer sun.

Speeding-Lower Road, The Street Effingham

HGVs-Lower Road, The Street Effingham

Congestion-Lower Road, The Street Effingham

Congestion-junction of Ockham Road South & A246

Other concerns-Potholes.

Damage to verges or footways-Pavements not very good in Norwood Road especially for walking and wheelchairs.

Other concerns-We would like street lighting in Norwood Road.

Speeding - Effingham Common Road often very difficult to get out at Lower Farm Road as cars going along Effingham Common Road at circa 60 miles per hour. It is also quite scary walking to station. I will not walk my young children along the stretch of Effingham Common Road to station.

Areas where there is inadequate parking - Effingham Junction station from Midday - I have had to drive

to Cobham on several occasions as no parking at Effingham Junction

Speeding- The Street, Effingham

HGVs- The Street, Effingham

Other concerns- Dangerous crossing at 'Crossways'.

Speeding- The Street

HGVs- The Street

Congestion-The Street, Little Bookham Street
